May 23	Packet Pickup from 10:00 am-11:00 am
June 2-June 8	High School Salt & Light Trip to Serve Marklund

Note: If you choose Monday as the start day, you will need to modify some of the formatting in the calendars (bold vs. non-bold days).

Publishing your calendar. If you want to publish a school calendar, you must ensure that it includes the following note and URL in the footer: **Calendar Templates by Vertex42.com - <https://www.vertex42.com/calendars/school-calendar.html>**

Converting the calendar to a PDF. To publish a school calendar on your website, you should first convert it to a PDF. The best way to do that is to either print to a PDF driver, or in Excel 2010/2013 you can go to Save As and select PDF.

Changing the color scheme. You can change the color scheme by going to Page Layout > Themes > Colors

Overwriting formulas. You can overwrite a formula to place an "H" in place of a holiday for example. Be very careful if you copy/paste days so that you don't mess up the formulas. You can copy/paste the formulas for the days *within* the same month, but *not between* months.

View the Print Area. To view the current print area, first view the Print Preview (Ctrl+P) then return to the Home tab. Or, go to View > Page Break Preview. The print area will become highlighted with a dashed line. To choose a new print area, select the cells you want to include and go to Page Layout > Print Area > Set Print Area.

« Make a list of important dates. Enter dates as text by entering an apostrophe before the date, like 'Aug 8

« Use the **Format Painter** to copy the format from one cell to another
« Copy and paste the **Shapes** to highlight specific days
